Two Stars at the Fair
Prof. W. H. Tomhave of State College, will judge the stock at the Fair this year. Prof. Tomhave is professor of animal industry, an expert of rare experience and of very high reputation, and a writer of unusual ability. Bedford County is to be congratulated on securing such a man as judge of its stock. His advice, criticism and suggestion will be of immense value to those of us who are interested in improving the quality of our livestock.

Prof. A. Freeman Mason is a horticulturist. For several years he has been located in Oregon and was trained in apple packing at Hood River, where the most successful apple packing in this country has been done, resulting in the highest prices for fruit. Prof. Mason is also well acquainted with the markets of the east and knows just how good our fruit is in quality and how it ought to be packed to bring us the best net returns. He will not only pack apples for us, but will act as judge of the fruit display, awarding premiums; and will give us all many valuable suggestions for better and more profitable work with our fruit.

A. R. Robinson
Aaron R. Robinson died at his home near Mattie Monday evening of last week, of tuberculosis, aged 47 years, six months and 26 days. He was a son of Isaac Robinson and was born near Robinsonville on February 11, 1868. He was twice married, his first wife dying a number of years ago. His second wife died about four months ago. He is survived by three brothers: M. L. of Everett, John of Bell Grove, Md.; Job of Altoona; and by one sister at the Alms-house; also by two children by his first wife, Oscar of Whipp's Cove, and Mrs. Ethel Collins of Flintstone, Md., and two children by his second wife, Marshall and Alonzo at home.

MORSE W. CORLE

Brief Sketch of One of the Candidates for County Treasurer.

The subject of this sketch, Morse W. Corle, aspires to the Democratic nomination of County Treasurer. He is well known in Bedford County, having been born in Bedford Township in 1876, when the people throughout the country were celebrating the centennial jubilee of their independence.

In 1888 he came with his parents, Mr. and Mrs. Martin Corle, to Bedford, where he attended the public schools. When 16 years old he entered the Bedford Gazette office to learn the printing trade, at the time when Nicholas L. McGirr was editor and one of the owners. Moss, as his friends call him, was an industrious employee of The Gazette office for 24 years, working faithfully for Editors McGirr, McNamara, Kerr, Harclerode, Van Ormer and Barkman.

Twenty-four years of faithful work in a county newspaper office, gives a man a practical experience, and useful knowledge, and a business and executive education that cannot be acquired in any other field of labor. "It is better than a college education," said James G. Blaine, who ought to know, for he was a college man, a practical printer, a country editor and a public servant for many years.

Mr. Corle's practical experience in printing, fortified by his integrity, stability and natural business qualifications, would make him an ideal County Treasurer.

Any voter who casts his ballot for Mr. Corle next Tuesday, will have voted for a man capable of filling the office. He is now presenting his name to the voters of the county for the first time for any county office.

In 1901 Morse W. Corle married a Bedford County school teacher, Miss Nora E. Boor, daughter of Mr. and Mrs. Baltzer Boor, of Cumberland Valley, now of Bedford. They are the proud parents of four children, two boys and two girls. He is a member and a steward of the Bedford Methodist Episcopal Church, and is connected with a number of fraternal organizations. For 21 years Moss was a member of the Bedford Fire Department.

In politics Mr. Corle has always been a liberal but staunch Democrat. He is not intolerant in religion or in politics. In 1909 he was elected Chief Burgess of Bedford by one of the largest majorities ever given a Democratic candidate for a borough office. He served four years and ten months as Burgess.

That he will make an efficient public official is conceded by all who know him.

David L. Kauffman for County Commissioner

Imler, Pa., Sept. 13, 1915.

Mr. Kauffman was born in King Township, Bedford County, about 58 years ago. He is one of this township's favorite sons, he having filled about all the offices of the township well and favorably. He has the excellent faculty of finding out what the people want in matters of great moment to their interests. He scrutinizes closely every proposition that confronts him and is conscientiously guided by what he thinks will be for the best interests of the tax payers. Mr. Kauffman is a man in the fullest sense of the word. He is the same at all times. He has an excellent and enviable reputation for truthfulness, honesty and fair dealing with his fellow man, and judgment not equalled by many, which is proven by the demands for his advice in all affairs of the township.

We know that he is one man in the field that if elected to the office of Commissioner will use his every effort to raise it to the highest standard of efficiency and just dealing to all.

If you do not know Mr. Kauffman, ask anyone from the north end of the county and they will certainly verify all we have said and gladly do so.

A vote for Kauffman is a vote for the best interests of the tax payer.

Want Weight Inspector

Mandamus proceedings, to compel the County Commissioners to appoint an inspector of weights and measures for Bedford County, were filed recently by Hon. J. M. Reynolds in the name of District Attorney Reiley. The Act of Assembly of 1913 created this office but the Commissioners have constantly refused to make an appointment.

Ira M. Long has been appointed to the position.

Sad Accident to Spencer Shafer

Spencer Shafer, about 15 years old and son of William Shafer of Mann Township, shot himself in the thick part of the leg on Wednesday afternoon, tearing the muscles from the leg and from the bleeding and pain he died about two hours afterward. He took the shot gun out to kill a hawk and met with the accident. No one knows how he came to have the gun in the position to shoot himself in the leg.

William A. Alexander

William A. Alexander, a well known resident of Everett, died at his home at that place Tuesday evening of last week. He was born in Well's Valley, Fulton County, on July 28, 1853, and was a son of the late John B. and Rebecca Alexander. He is survived by his wife, two sons and one daughter; also by one brother and two sisters.

The funeral service was held at his late home last Friday and was conducted by Rev. J. R. Dalling and E. L. Kennedy.

THOMAS F. BAILEY

Final Statement and Declaration By

Thomas F. Bailey, Candidate

For Judge

On the 18th and 19th days of August, 1915, I had put in all the newspapers in this district the declaration of principles upon which I proposed to stand in this campaign. In that declaration I called upon my competitors to be "equally frank and explicit" in stating their positions.

I asked them to do this in order that the voters might know whether or not they would be guided by the law as laid down in the statute books of the State or whether they would be influenced by some obligation incurred before the election. Not any of the candidates has seen fit to say the thing which the people in this district most desire to know, namely, that he will recognize the local option spirit contained in the Brooks High License Law. None of them has said that he will let the people determine

for the Court whether or not license is necessary in their respective communities.

I now ask the voters of this district whether or not my competitors have treated the people to full and fair information with regard to their positions as it was their duty to do.

I again declare that no candidate has the right, either expressly or by implication from silence, to pledge himself to hear only one side of a case, when the law says that he must hear both sides; and I further declare that, in this hearing, I will be governed by the desire of the several communities, properly expressed, in the determination of the granting of licenses.

I regard the rights of litigants as of prime importance but I will have constantly in mind that third party to all litigation, the tax payer. He pays the bill.

THOS. F. BAILEY.

NEGRO MURDERED

NEAR HYNDMAN

Emanuel Webb Found Dead With Dozen Stabs in Body.

Another murder trial scheduled for Bedford County! Early Sunday morning B. and O. Engineer Harry Shaffer of Hyndman, on his way to get his engine, found the dead body of a negro lying along the track opposite the brickyard at that place. He immediately notified the authorities and an investigation was commenced. The dead negro was identified as Samuel Webb, a member of the B. and O. gang employed on that section. He was a large man and aged about 38 years. There were perhaps a dozen wounds on the body, two of them being knife wounds in the chest, and his head had been crushed by a blunt weapon.

District Attorney Reiley and Deputy Sheriff Dodson went to Hyndman Sunday evening and learned that a number of colored men had been drinking during Saturday.

Benjamin Kennedy heard a quarrel in front of his residence late Saturday night, when he heard a negro begging someone not to hurt or kill him. But before Mr. Kennedy could raise an alarm they had passed out of sight. It is probable the negro was then murdered and his body placed alongside the track to give the impression that he had been killed by a train.

Sheriff Dodson arrested a negro, James B. Johnson, who confessed that he was connected with the crime and knew who caused Webb's death but that "he had only hit him on the head with a club." It is thought the knife wounds were the chief cause. Johnson was brought here Monday morning and placed in jail. B. and O. detectives are on the trail of the other negroes implicated and several arrests are expected shortly.

Suffrage Meetings Over County

Mrs. E. B. Kiernan of Somerset will spend three days in the county next week speaking for the interests of equal suffrage. An automobile tour of places not accessible by railroad is planned. It is impossible to state definitely the time of meeting of this character, but the following schedule will be followed as closely as possible: Wednesday, 22nd, noon meeting at Woodbury; afternoon, Maria and Waterside; evening, 7:30, New Enterprise.

Thursday, 23rd, morning, Loysburg; noon, Everett; afternoon, Breckwood and Ray's Hill; evening, open air meeting in Bedford on Square, 7:30.

Friday, 24th, Fishertown, Spring Meadow, Pleasantville, New Paris; evening meeting at Schellsburg at 7:30.

J. W. HUFF

Saxton, Pa., Sept. 15, 1915.

To the Voters of Bedford County.

Gentlemen:—Since the Judgeship has been removed from party politics and made non-partisan, all obstacles have been removed from the way of those who desire to vote at the Primaries as well as at the general election for great Moral issues regardless of party affiliations.

After having served one term as Associate Judge in this county I believe I am the logical candidate to succeed myself in this important office. I am still in the prime of life and the experience I now have surely fits me to do even better work than I have been able to do in the past.

It is well known throughout the county that my advanced position on the "No-License" question forced that issue to the front, and no suggestion of compromise nor threat of disaster either before or after the election prevented me from meeting every expectation of my temperance friends, and I kept religiously the sacred oath administered to me when inducted into the office of Associate Judge.

How proud the good citizens of our county are that we are free from the legalized liquor traffic! How we have helped blaze the way for other counties to follow! Everywhere throughout the State where men and women labor for the destruction of the liquor traffic, Bedford County is an inspiration to them. Others are aspiring for the position, and against them I have no word to utter. But, my friend, it seems to me that after having been the pioneer in pressing this matter to an issue, when many temperance men feared it was a mistake and politicians of all parties set themselves against me, I surely feel that I am not asking too much when I ask all men, regardless of party, who rejoice with me in what has been accomplished in the overthrow of the saloon throughout the county, to rally to my support and make my nomination so nearly unanimous that the forces of evil will sit up and take notice.

As to the work of an Associate Judge, I am free and frank to say that while I do not pretend that my judgment is infallible nor that I am free from mistake, yet I am satisfied to have you scrutinize my record in every part and I believe you will see that while interested in the moral question above all others, because that was the main issue on which I was elected, I have not failed to give honest, careful and conscientious attention to all my duties as an Associate Judge. As has been my record in the past, I shall, if elected, give the same careful consideration in administering the law to all matters that come before me.

Hence on my record, my faithfulness to a charge, I appeal to all good thinking and fair-minded voters for their support at the Primaries to be held September 21st, and I assure you if I am nominated and elected, as I hope to be, I shall be more faithful if possible in the discharge of my various duties in the future than in the past. And I want to say most positively that I am more convinced than ever that Bedford County has profited in every way by the action of the License Court, and I have no reason to modify nor change in any way my known position on the vital issue that led originally to my election. Surely my past record should speak no uncertain word as to my future policy. You will all agree that President Lincoln was right when he said, "It is always bad policy to swap horses while crossing a stream," so in solving this problem you will apply wisely this sage advice.

Believing in the justice of my claim and the fairness of men in dealing with their fellow men, I make this appeal to you, and thanking you in advance for your help and support, I shall ever remain,

Faithfully yours,
J. W. HUFF.

How to Keep Our County Dry

This will be the topic of the sermon at the Methodist Episcopal Church next Sunday evening, when the pastor, Rev. G. W. Faus, will discuss in a non-partisan, non-personal, but earnest and straightforward manner the duty of the Christian voter at the coming primaries.

Whether you think you will agree or disagree with the speaker you are cordially invited to be present. A male chorus will be a feature of the service.

Bowser-Reithmuller

Robert Bowser of Bedford and Miss Thelma Reithmuller of Fremont, Neb., were married recently at Fremont.

After a visit in Nebraska, they will go to Sherman, Tex., where Mr. Bowser is a telegraph operator.

He is survived by one wife, five sons and one daughter, also by one brother, John E. of Chaneyville.

Try This If Hair Starts Falling

At this season of the year many people find their hair coming out at an alarming rate and often fear baldness. This may very easily be the ultimate result if proper scalp treatment is not taken at once. All excessive loss of hair can be almost immediately stopped by the use twice daily of a little Parisian Sage which invigorates and nourishes the slowly dying hair roots into a renewal of healthy growth. New hair quickly grows on the thin spots, old hair stops falling and the difference is apparent in a few days by the very look of the hair itself taking on new life, lustre and beauty. Parisian Sage can be obtained from F. W. Jordan, Jr., or any good druggist. It is not expensive.—Adv. 10 Sept 22

WASHINGTON LETTER

Interesting Notes From Our Correspondent at National Capital.

Washington, D. C., September 14.—Dr. Constantin Theodor Dumba, the Austrian Ambassador, has asked the Austrian-Hungarian minister of foreign affairs at Vienna to comply with the request of this government for his recall. Dr. Dumba asked that he be recalled "on leave of absence."

The Ambassador, who is now at Lenox, Mass., transmitted his request through Count von Bernstorff, the German Ambassador, because this is only method of communication with Vienna is by German wireless through Berlin.

It is regarded as certain that Dr. Dumba's government will comply with his request in the form in which he has made it, and that this will dispose of the question whether Austria will send another ambassador in his stead. So long as an ambassador is away "on leave," he is still technically accredited to the post which he has occupied. While the affairs of the embassy in such a case are left in the hands of a chargé d'affaires, there is no vacancy to which to appoint another ambassador.

Acting under instructions from the White House, agents of the Department of Justice will meet James F. J. Archibald, the American correspondent involved in the case of Dr. Dumba, when he lands at New York on the steamer Rotterdam from Holland. All officials here are maintaining the strictest silence regarding Archibald's case, but it became known that instructions were sent to the United States Attorney at New York to take up the matter. The question of whether Archibald actually knew the contents of the papers he carried will probably be the deciding factor in what action the government ultimately takes. The statute on which the government is proceeding fixes a fine of not more than \$2,000 and imprisonment of not more than three years for its violation.

The first of a series of important conferences between Count von Bernstorff, the German Ambassador, and Secretary of State Lansing has just taken place. The purposes of the conferences is to reach an amicable and definite understanding on the pending issues between the two governments. The German Ambassador has been given authority by his government to take up every point with Secretary Lansing. Each step will be submitted to Berlin for approval. On his part Secretary Lansing will be in constant touch with the President.

In this way it is believed that a full agreement can be reached regarding the rights of Americans on the high seas and the application of international law to submarine warfare much more quickly than by the method heretofore pursued, namely, the exchange of formal notes.

It was said in well-informed circles that although the American government was not pleased with the Arabic note, yet the situation was considered far from hopeless. Ambassador Bernstorff was plainly pleased with the turn affairs have taken.

Following the receipt of Carranza's reply to the peace proposals of the Pan-American diplomats, it is now realized here that the administration may do the unexpected and recognize Carranza. One suggestion is that the United States government may desire to part company with the Latin-American countries in the Mexican enterprise. This could be done by recognizing General Carranza, holding him responsible for eventualities in Mexico and then intervening if he were unable to maintain peace and order.

So hopeful is Secretary Lansing and his associates on the Pan-American conference that a successful plan for the restoration of peace may be soon worked out that Ambassador Naon from Argentina

How to Destroy Catarrh Germs and End Catarrh Forever

Catarrh, according to a noted authority, is a germ disease and the only way to cure it so it will stay cured and never come back is to kill and drive out of your system the catarrh germs which have found lodgment there. When the germs go the catarrh will stop.

There is nothing better for destroying catarrh germs than breathing into your nose and lungs the pleasant, soothing, healing, germ destroying air of Hyomei (pronounced High-o-mey) made from the purest oil of Eucalyptus and combined with other powerful, healing, antiseptic and germ destroying ingredients. Hyomei penetrates and heals the inflamed swollen membranes of your nose and throat, stops discharges, clears the passages and completely cures the disease by destroying

For catarrh germs cannot live after Hyomei reaches the body. W. Jordan, Jr., and his good druggists in Bedfordshire have long sold Hyomei with a positive guarantee of successful results or money back and his generous policy pays.—Adv. 17 Sept. 21.

has postponed his visit home for another week. Trying to "mobilize" the genius of this country for building up the Navy, Secretary of the Navy Daniels has announced the personnel of the advisory board to assist the navy in its mechanical problems of construction and development, of which Thomas A. Edison is chairman. The other members were chosen by eleven scientific societies of the United States. The inventor, Hudson Maxim, nominated by the American Society of Civil Engineers, was appointed a member. The failure of Henry Ford and Orville Wright, and other men of note to be included in the personnel of the advisory board, has caused Secretary Daniels to intimate that later the board might be enlarged.

His liberty mortgaged beyond recall to affairs of international importance, the President does not regard himself free to accept invitations that will require him to make addresses. So he told a delegation from Manassas, Va., which invited him to be present at the dedication, September 30, of a tablet to commemorate the first instance in history of a meeting in amity of former hostile armies on the battlefield where they opposed each other.

Although the President does not have time to leave Washington, he will probably receive the patriotic societies of women at the White House some time during the Grand Army encampment during the latter part of this month, according to advices from authoritative sources. This is expected to be the most notable of many receptions arranged for the visiting women in connection with the G. A. R. encampment in commemoration of the fiftieth anniversary of peace in this country.

The Boy Scouts of Washington are also to have a large part in the Grand Army week exercises. The value of their services was given particular demonstration during the Wilson inaugural celebrations on the 3rd and 4th of March two years ago. The twenty-fourth annual meeting of the Association of Military Surgeons, now being held in Washington, is serving to direct attention to the amazing progress made by surgeons, physicians and sanitation experts since the European war began. Modern military surgery in the light of methods now being used in the European war is the principal topic of discussion.

The Post Office Department, the Federal Trade Commission and the Department of Commerce have joined hands in a plan looking to a gigantic boom in American foreign trade through the medium of the foreign parcel post. The Post Office Department is working out this program, and while maintaining secrecy concerning its details, announces that a formal statement will be made early in December.

The advantages of buying in Washington are being heralded through Maryland, Virginia and West Virginia by a party of trade boosters of this city, who are touring those three States by automobile this week. In each of the thirty-two towns visited hundreds of pamphlets and posters describing Washington as the "bargain city" are being left.

During the past four or five days Washington has suffered from one of the hottest waves of the summer. The highest official registration of the temperature was 94, but in the business center of the city the thermometer easily registered eight or ten points more than that. The highest temperature officially recorded this summer was 95. During the hot wave the humidity established a record for 1915. The hot weather is due to a wind from the south, and will continue according to the weather bureau until the wind changes.

The excessive heat of the last few days has had a tendency to alter some home-coming plans, and dates for closing summer cottages have been postponed in a number of instances. Mrs. Houston, wife of the Secretary of Agriculture, who is usually in the van-guard of the home-coming wave, arriving before the opening of the school year, is still at Woods Hole, Mass., and probably will not leave there this week.

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreadful sleep, irritability and unless corrected, leads straight to a breakdown. To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol. Scott & Bowne, Bloomfield, N. J.

Temperance

(Conducted by the National Woman's Christian Temperance Union.)

EFFECTS OF BEER DRINKING.

The political strength of liquor is furnished by the wine and beer drinkers. Whisky interests may be better organized than the brewers and interfere more actively in politics, but the votes which make possible the sale of intoxicants are not furnished by whisky drinkers, who do not always vote as they drink. The beer drinker generally will vote to protect his habit, because he is far from convinced of its malignancy.—From Editorial in Chicago Tribune.

And that is why the W. C. T. U. and other temperance organizations are bringing to the masses the truth about beer and its malignant effects upon the human organism. Concerning those effects the Life Extension institute says in a published statement:

"One-half of one quart of beer is sufficient to distinctly impair memory, lower intellectual power and retard simple mental processes, such as the addition of simple figures. This narcotic or deadening influence is first exerted on the higher reasoning powers that control conduct, so that the lower activities of the mind and nervous system are for a time released. The everyday, well-poised, self-controlled man goes to sleep, as it were, and the primitive man temporarily wakes up. Eventually, the nervous system is narcotized, and the drinker becomes sleepy. Muscular efficiency is at first increased a little, and then lowered, the total effect being a loss of working power."

A CORRECTION.

Newspapers and magazines are continually publishing erroneous statements with regard to the number of dry states. A leading weekly periodical publishes a prohibition map showing 17. Iowa is omitted. A writer in one of the June magazines gives the number as 16, Iowa and Idaho both being counted among the wets. Up to September 21, 1914, there were nine prohibition states. Since that time nine more have been added. The 18 prohibition states, in the order of their going dry, are:

Maine	1851
Kansas	1880
North Dakota	1889
Georgia	1907
Oklahoma	1907
North Carolina	1908
Mississippi	1908
Tennessee	1909
West Virginia	1912
Virginia	1914
Colorado	1914
Oregon	1914
Washington	1914
Arizona	1914
Arkansas	1915
Alabama	1915
Idaho	1915
Iowa	1915

PROHIBITION PROGRESS.

(By JAMES MIDDLETON, in World's Work.)

About two years ago Mr. William Jennings Bryan gave a diplomatic dinner in Washington, distinguished particularly by the absence of wine. Immediately the world burst into a roar of laughter; Europeans, especially, hailed the proceeding as an amusing illustration of American provincialism. A few months ago the king of England announced that he would himself abstain from alcoholic drinks for the rest of the war, and that wines would no longer be served in any of the royal households. Nine American states have adopted prohibition in the last eight months. France has legally forbidden the manufacture and sale of absinthe, and the Russian empire is "dryer" at the present moment than Kansas or Maine ever were. Facts like these testify to the progress that the cause of antialcoholism has made in less than a year. When the leader of the most sophisticated society in Europe follows the example of our own somewhat homespun secretary of state, the cause of teetotalism has ceased to be ridiculous.

THE SOCIALIST VIEW.

The special committee appointed by the Socialists a year ago to study the liquor problem says in its report, presented May 13 to the national committee in Chicago that "total abstinence is the only absolutely safe and wise course to pursue" in view of the disastrous effects of excessive drinking.

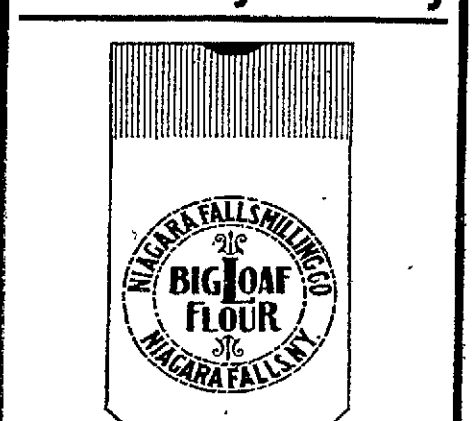

Many of the authorities quoted in the report in condemnation of beer are German. Among alcohol's recorded opponents are 800 German and Austrian doctors. One statement is that "beer is not the harmless beverage many of the German people think it is."

"The Socialist party," declares the report, "cannot remain indifferent or inactive, but should take a definite position and active part in combating the evils of alcoholism."

ILLINOIS GOING DRY.

Illinois had twenty-eight prohibition counties when the women were asked to assist in destroying the saloon by their votes. They responded by driving them out of twenty-three additional counties at the first election. Four more counties were made dry this year, making a total of fifty-five. Seventy county seats are dry; 1,234 out of 1,430 townships in the state have outlawed the saloon. Not one foot of dry territory has been changed to wet during the two years from May 1, 1913, to May 2, 1915.

COLLEGE ATHLETICS

Little Talks on Health and Hygiene
by Dr. Samuel G. Dixon, M. D.

Many a boy and girl entering college dream not alone of success as students, but are anxious to gain recognition for athletic achievements. To ward the young is like casting water on burning oil and yet it were well for the students who contemplate severe training to seriously consider as far as possible their probable occupation through life and if it is to be sedentary they should refrain from hard competitive athletics which will develop the muscles to a degree that cannot be kept up by the successful lawyer, doctor, teacher, or the majority of those engaged in business.

Over-training in youth is almost certain to result in physical deterioration in after years. The full value of athletics is obtained by the individual who achieves a rational all around development. Such a training is far more apt to stimulate one in after life to continue those athletic exercises which are available to the business and professional man or

woman.

No occupation should prevent the student or the professional man from taking a reasonable amount of outdoor exercise daily. If nothing else a good swinging walk, say five to ten miles a day in the open air will always prove beneficial not only during youth but to a less degree in old age.

The young woman who goes in for athletics should be particularly careful. If indulged in to a reasonable extent under the supervision of a properly trained director of athletics, exercises and sports of a not too violent character will be a benefit.

Over-exertion is apt to incur a serious penalty with either sex but is perhaps more harmful for women than men.

The fact should be kept in mind that exercise is a means to an end and properly indulged in it should stimulate the body and react healthily on the process of the brain.

For the college man or woman this is the practical side of athletics and the one which should be kept in mind.

The Gazette, \$1.50 a year to all.

THE HEAVY COST OF VAGRANCY

A speaker at one of the Chautauqua assemblies said a few days ago that there are now 500,000 vagrants tramping it over the United States. He figured that this annual tax costs the country \$125,000,000 a year, to say nothing of the loss of work through the idleness of so great a population.

The vast army of vagrancy draws its recruits from every village. Everywhere there are boys who are dazzled by the hollow fascinations of a wandering life. Parents with restless and wilful youngsters need to watch out very carefully, if they wish to save their boys from the peril of the road.

Years ago it used to be said that dime novels lured boys to go tramping. Today it is laid on the movies. But the same drift would be seen if there were no dime novels and no movies. These boys have a morbid, nervous craving for excitement, and the quiet life of home and school palls on them.

Idleness can not be cured by whaling the boy. Something interesting must be put into his life to take up his attention. Get him into some club where he can have a chance to play baseball, football, or basketball. A good "trimming" administered to the hated athletic rivals from the next town is an antidote of many roving humors.

Many boys are allowed to acquire the habit of loafing around railroad stations. This results in accidents. Many a man who hobbles around through life on a wooden leg got it, not in war or honest work on a factory machine, but by hopping freights as a boy.

But this is not the most dangerous aspect of the station loafing habit. The railroad lines are the great national tramp thoroughfare. Tramps always hang around railroad yards, looking for guileless boys whom they can lure on the road to chase food and assist in sneak thieving. The boy who loafs around in these quarters is pretty sure to encounter these temptations, at a time when he has no conception of their peril.

LOAFING IN COLLEGE

Dr. T. M. Balliet, dean of the pedagogy school of New York University, told the National Educational Association a few days ago that present day college terms are "four years of loafing." This agrees with an article by a college undergraduate recently printed in The Outlook, which

says college courses are so easy that students slip through with little work.

Yet many students, apparently perfectly truthful, say they have to work hard to pass tests and keep out of conditions. The parent looking for a good college for his boy or girl feels puzzled to know which point of view is correct.

The bright student may get the substance of a lesson in ten minutes, over which the duller fellow would work an hour. By dodging studies like mathematics and the classic languages, which call for steady grind, many long hours are saved.

With ten minutes hurried reading of a subject like literature, civil government, political economy, the student with ready wit and facile speech might make a far better showing than the slow tongued grind.

The frequent cases like these indicate the fallacy of too many electives. The educator with scholastic tastes may think each student is selecting the course that accords best with his own needs and gifts. But probably the majority of students pick the easy courses.

A college should not be satisfied with its work unless careful thought is given to each individual student. If he is slipping along on easy courses, the authorities need to hand out some real intellectual wood-pile for him to saw and split. Few parents send their boys to school to spend their time with their feet on the piazza rail of fraternity houses, or eating and sleeping on the ball ground.

Honey Items for Women

For linen dresses there is nothing prettier than the straight full skirt. When washing delicate curtains, stiffen in a little gum Arabic water in place of starch.

Plaster of Paris and white lead paint is a good cement to use for mending cracks in lavatories, bath tubs, etc.

Children who suffer from worms should be given a dinner once each week of onions, boiled or roasted.

Princess dresses are coming back into fashion, it is said, and one indication of this return is the front panel cut in one piece for waist and skirt shown on some of the new lingerie frocks. This gives a good chance for embroidery, which is so much used this summer on net and other lingerie frocks.

If salt and alum are added to whitewash it will stick much better. Air the blankets at least twice during the "packed away" season.

Awning stripes in silks are used for shirtwaists for morning and sports wear.

Almost every morning frock and skirt this summer boasts one or more outside pockets.

Blouses of white organdy, generously tucked and adorned with a bow of black velvet, are effected if worn with black taffeta skirts.

Boil half a pint of linseed oil and after it is cool mix in a half-pint of vinegar, and keep about the house. It will be found ideal for softening shoes or other leather—and you'll need it after school begins.

Wash and bleach in the hot sun all small linen pieces. When dry and white dip in sweetened water, using a tablespoon of sugar to three cups of water. Roll pieces in heavy towel and iron while wet.

Norfolk styles will be smart and practical for the young girl's school dress. The fashion of the smock has been charmingly adapted to young girls' dresses.

It is attractive to have the ribbon on the panama hat to match the

stripe in the skirt.

To keep the hair light and fluffy shampoo it with castile soap and put a little soda in the water.

Taffeta cuffs are put on many sleeves of tulle and lace, in separate blouses or in frocks, either of tulle, lace, satin or taffeta.

Violet and pansy shades are coming into prominence, and there is indication that by next winter they may be in high fashion.

Parasols trimmed in the inside are one of the features of the summer. The trimming takes the form of embroidery frills of tulle and chiffon and applied flowers or birds of silk.

The North American

The North American is going to make a new departure in picture supplements by issuing with its edition of September 19 a wonderfully artistic photograph print entitled "Family Cares." This is a picture which will appeal to every lover of children and every one who is interested in child life.

It represents a little girl clad in her nightgown going downstairs with a sick pet. The expression on the child's face shows the real trouble with which her soul is burdened. It is the work of a master artist, and will find instant favor with North American readers.

The North American picture policy, which will be followed for several weeks to come, is based upon the idea that a picture worth preservation should be issued in such form as will allow it to be preserved. The print of "Family Cares" is on handsome heavy paper. It is done in the best style of the photograph art and is ready for framing. It is worthy of a place on the wall of any home.

THE JUDICIAL CONTEST

In presenting to our readers the various candidates for judicial honors we have refrained entirely from mentioning the political faith of any candidate. We consider the position above partisan politics and if any one of our readers know the political complexion of the candidates, he never learned the fact through the columns of The Gazette. The Gazette is the only paper in the county who hasn't mentioned the politics of these aspirants and we adhere to the spirit of the law in that respect.

We recommend Hon. George B. Orady of Huntingdon County for one selection of our readers to the Superior Court bench. Mr. Orady is without question one of the ablest, if not the ablest, jurist Pennsylvania has ever had. You will make no mistake in voting for Orady for Superior Court. As for the rest, we are not able to advise since we are not at all acquainted with the rest and have you no recommendation of people we do not know. Mr. Orady is an able speaker as well and an acquaintance with him will satisfy you that you made no mistake should he be your choice at the polls.

For President Judge of this district, embracing Bedford, Huntingdon and Mifflin Counties, we recommend Thomas Fisher Bailey. Nobody who knows him will deny that he is the ablest candidate in the field and we stand for the ablest. The opponents of Mr. Bailey admit his superior ability and his frank statement on the license question is one which no other candidate has questioned as being the spirit as well as the letter of the Brooks High License Law, a local option spirit, for which the people have been fighting for the last ten years and which we have never gotten in our cups up to date. Mr. Bailey is from Huntingdon County, a very able member of the bar, attorney for the Pennsylvania Railroad and Juniata College, a trustee in the Blair Memorial Hospital and a very prominent member in the Presbyterian Church, being also a teacher of the Men's Bible Class of that church. Mr. Bailey is not stingy in any sense of the word. He can give and will do more for the people of Bedford County than any candidate in the field. He is in a position so to do. He is perfectly frank in his demeanor, broad minded and wholesome. He takes an active part in the schools and contributes liberally to them. If we had to confess his inferiority, we would not humiliate ourselves but would support the ablest man, a position which no man need be ashamed to take. Don't forget to support him at the polls.

J. W. Huff is the candidate for Associate Judge. He is the pioneer no-license fighter in Bedford County. Mr. Huff is like Mr. Bailey, frank, sincere, broadminded, and liberal. He has been in Saxton and received his early education in that vicinity and commands the respect of all who know him, regardless of political faith. He can be trusted to do his duty on the bench as well as Mr. Orady or Mr. Bailey and we ask the voters to cast their ballots for him. Our choice is Orady, Bailey, Huff.

Fraud Paint

The worst mistake one is likely to make in painting is wrong paint; it is easy to make.

We all say "Ours is the best," and there are 1000 of us. One is best; but a dozen are so near on a level that no one knows, for sure, that his is the one.

The worst paints are worst lars; they know what they are, put on a bold face, and brazen it out.

Their one true argument is low price; but low-price paint is always, must be, a fraud; it is made to cheat cheatable people.—Adv.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acts directly upon the blood and cures curably upon the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Charles L. Beard

Word was received here this week by local relatives that Charles L. Beard, a former resident of this place, had passed away on Sunday, September 12, at his home in Longmont, Col. Mr. Beard was aged about 45 years, and death was due to tuberculosis.

Deceased came to Bedford as Jeweler for J. W. Ridenour a number of years ago and made many friends during his residence here. In 1902 he was united in marriage with Miss Etta V. Bowers, sister of Walter M. Bowers of our town, and located in Grafton, W. Va. In 1906 he removed to Colorado on account of failing health. Surviving are his wife and two sons, Donald and Raymond. Interment was made at Longmont on Wednesday. His many friends here will regret to learn of his death.

Osterburg

September 14—A. J. Ganntner, wife and two children and Mrs. Ganntner's mother, Mrs. Eicher, all of Portage, passed through Osterburg last Sunday enroute to Bedford Springs. Just in front of the Bowser livery barn, they met with an accident by the front axle of their car breaking. None of the occupants were injured. They phoned to Portage for another car and by 10 o'clock Sunday night were ready to return. Mrs. Eicher is the mother of F. W. Eicher, who was manager of the First National Bank of Schellsburg for several months.

Miss Mary Slick, who was taken to the Nason Hospital, Roaring Spring, about three months ago with a fractured hip, has returned home greatly improved.

Our schools opened on Monday with Prof. Berkheimer and Miss Alma Mason as teachers.

Mrs. John Colvin and Miss Mary Colvin of Schellsburg were guests of the former's sister, Mrs. J. S. Bowser, from Friday until Sunday evening.

The body of Miss Rebecca Wisel, a highly esteemed resident of Altoona, will arrive at this place Thursday morning for interment in the Reformed Cemetery. She was born at St. Clairsville and was the daughter of Josiah and Amelia Wisel. Three sisters and one brother survive: Misses Sadie and Annie Wisel of Altoona, Mrs. Mary Fetter of Osterburg and George of Altoona.

Financing the Apple Cannery

We want to start the cannery this fall, but time presses. The next few days will determine whether we can go ahead and handle this year's windfalls and culls or must wait for next year's crop.

The plan of finance includes the issue of \$5,000 first mortgage bonds and \$7,000 common stock. Enough bonds will be sold at par to pay the cost of the land, buildings and machinery. Enough common stock will be sold at par to provide working capital.

It will take not less than 60 days to get a charter and have the bonds ready for delivery. That would throw the work too late for this year's crop. The plan, therefore, is to go ahead, organize, place enough of the bonds to pay for the plant, and borrow against this bond subscription, enough money to pay the current bills for building, machinery, etc., and when the bonds are delivered and paid for, use the proceeds to clear up the cost of the plant and machinery. Only enough bonds will be sold to pay this cost.

As to the common stock, sale of which is to furnish working capital, we have the following plan: Bedford business men will buy at par for cash a part of the common stock, provided the fruit growers are willing to subscribe for the balance of the common stock, the fruit growers, however, to pay for their stock by delivering at the cannery their windfalls, culls, etc., which would otherwise be a total waste and loss this year. The price to be allowed for windfalls and culls to be that currently paid for the same grade of stock at the Biglerville cannery.

In other words, the Bedford business men are asking the producers of apples to use their waste this fall to help finance the cannery and standardizing plant; and are offering to put up their cash for stock that the fruit grower will get in exchange for what would otherwise be a total loss to him. On the number and character of replies to this offer will depend whether or not the cannery goes into operation this fall. It is, therefore, up to every fruit grower to express himself clearly and unequivocally on this matter, which is of vital present and future interest to his business.

The average prices paid for canning stock at Biglerville, as given us by the fruit growers there, have been as follows: Windfalls and culls, 50c per 100 pounds; run of the tree apples, 90c per 100 pounds.

We believe that this year prices will run fully up to the above average.

Please cut out and mail the slip printed below as quickly as possible. Yours truly,
Bedford Business Men's Association.

Bedford Business Men's Association,
Bedford, Pa.

Gentlemen:—I am willing to subscribe for common stock in the proposed cannery at Bedford, provided I have the right to pay for same by delivering my windfalls and culls at prices currently paid for such stock at the Biglerville Cannery. I have _____ acres in the bearing orchard, and estimate the total windfalls and culls at about _____ bushels. (Sign here) _____ (P. O. Address) _____

Miss Elizabeth Haney

Miss Elizabeth Haney died at the home of her nephew, W. E. Haney, in South Bedford Township, Friday morning, September 3, of tuberculosis. She is survived by two sisters: Mrs. Jane Bagley of Bedford and Mrs. Harriet Studebaker of Ohio.

The funeral service was conducted Monday morning, September 6, in St. Thomas' Catholic Church, by Rev. Father William E. Downes. Interment was made in the Catholic Cemetery.

Good Man for Treasurer

MORSELLE W. CORLE is the man the Democrats should nominate for County Treasurer next Tuesday. He is thoroughly reliable, competent and accommodating. He is confident he can serve the people of Bedford County in a satisfactory manner.

Many Have Indorsed Corle.

Business Men, Professional Men, Tradesmen and Laboring Men from every section of the county have indorsed Mr. Corle for County Treasurer because they believe him to be fully qualified to fill this important office. His twenty-four years' service in the Bedford Gazette office alone is a record for stability, as well as for practicability. He has always been opposed to Crooked or Gang Politics, and if nominated he can be elected at the general election.

Be sure you mark an X for **MORSELLE W. CORLE**, the first name on the Democratic ticket for County Treasurer.—Adv.

NON-PARTISAN

For Judge of the Courts of Common Pleas for the Twentieth Judicial District

I hereby announce myself as a candidate for Judge of the Courts of Common Pleas of the Twentieth Judicial District, subject to the decision at the non-partisan primaries to be held September 21, 1915.

THOMAS F. BAILEY,
Huntingdon, Pa.

President Judge

I hereby respectfully announce myself as a candidate on the non-partisan primary ballot for the office of Judge of the Court of Common Pleas of the Twentieth Judicial District, composed of the Counties of Huntingdon, Bedford and Mifflin, at the Primary Election to be held on Tuesday, September 21, 1915.

With the experience of more than twenty-three years practice in the several Courts of the Commonwealth, including the Appellate Courts, together with the exercise of industry and care and with fidelity to the discharge of the duties of this important office, if elected, I feel I can promise to the people of the District entire justice with impartiality and that the decrees of the Courts shall be moulded according to law and based upon its precepts in their proper interpretation. The public can be assured that my constant effort shall be to so administer the principles of justice that reversals by the higher Courts shall be prevented thus saving expense and burdensome taxation to both the litigant and taxpayer. The influence and support of voters irrespective of party are earnestly solicited.

Cumberland Valley

September 13—Rex. Baucher preached a special sermon to the young ladies Sunday evening.

Miss Mary Stoner of Verona, who has been visiting her brother in Virginia for the past four weeks, is spending this week here with her brother, Dr. A. Z. Stoner.

Miss Helen Davis of Pittsburgh is a guest at John Gephart's this week. Miss Amanda Oliver of Friend's Cove spent the week end with friends in this valley.

Last Saturday baseball playing seemed to be the order of the day in Cumberland Valley. Saturday morning while the Mann's Choice boys were on their way to Centreville, stopped off at Teaberry and played a game, which was won by the former. They rambled on to Centreville and in the afternoon played a game with the Centreville team, which was won by the latter, the score being 4-9. After Mann's Choice adjourned the married men of this place and the single men, who include all of the Centreville team, took the ground and played an interesting game. The game was won by the single men, score 7-27.

Walter Nave and wife and S. S. Nave and wife of Quality Hill spent Sunday with Mr. and Mrs. Charles Wolf of Cumberland.

Miss Mary Bortz, after spending the summer months with home folks here, returned to Wisconsin Thursday.

Mr. and Mrs. A. D. Deremer and Mr. and Mrs. John Warmuth of this place motored to Schellsburg Sunday and spent the day at John Williams'.

Ray Whipp and sister Mabel and Mearl Growden took in the sights of the surrounding towns Sunday.

The P. O. S. of A. reunion held in Williams' Grove, Everett, on Labor Day was very much enjoyed by all who attended from this place. Cumberland Valley was well represented; eleven cars with each having five passengers left Centreville at 7:30 a. m. The weather looked very rainy but the rain will not stop true patriots.

C. C. Bortz and family spent Sunday at John L. Bortz's at Bedford.

The township collector will be at the following named places on Tuesday, September 23, for the purpose of collecting school tax: J. N. Wertz's from 7 until 8 a. m.; E. T. Zembower's from 8:30 to 9 a. m.; Lee Growden's from 9:30 to 10:30 a. m.; T. J. Fisher's from 11 to 12; W. M. Fisher's from 1 to 2 p. m.

September 14—Mrs. Hiram Felton is visiting friends and relatives in Altoona and Lakemont.

Mrs. Frank Hoover spent several days recently with friends in Martinsburg.

Quite a number of people from here took in the Soldiers' Reunion at Lakemont Park, Altoona, on Saturday.

Mrs. Austin Shoemaker is visiting friends and relatives in Altoona and Johnstown.

Misses Fannie Bolger and Hazel Doyle of Three Springs were recent guests of the former's parents, Mr. and Mrs. C. W. Bolger.

Mrs. Joseph R. Mock and son Paul spent Saturday and Sunday with friends at Roaring Spring.

Dr. I. C. Stayer and family were guests on Sunday at the home of William L. Wineland.

Chalmer Felton spent Saturday and Sunday in Altoona.

Edward Cooke and Russell Crozier of Altoona visited friends in town on Sunday.

Mrs. Salvina Lechrone and son Harry spent Sunday at Roaring Spring. They were accompanied home by her daughter, Vina, who had been visiting friends there the past week.

Recent guests at the home of Austin Shoemaker were: John Grimes and wife of Adel, Ia., Mrs. Jacob Grimes of Saxton, Mr. and Mrs. Charles Shoemaker and daughter Nora, and Mr. and Mrs. Russell Barkley of Roaring Spring, Dora Shelly of Harrisburg, Kathryn Leonard of Six Mile Run, Olive Myers of East Sharnsburg, and Mr. and Mrs. John Swartz of Altoona.

The ladies of the M. E. Church will hold a parcel post social and festival at this place Saturday evening, September 18. Ice cream, cake and sandwiches will be served.

Mrs. William Smith and two children spent Saturday and Sunday with friends at Yellow Creek.

Harry Fluke and wife of Altoona spent Sunday with his father, S. B. Fluke.

Mrs. John Uery and two children of Maria were Sunday guests of her sister, Mrs. Caroline Reichter.

C. W. Bolger, wife and son Mark and Mr. and Mrs. Joseph Corle attended the funeral of Mrs. Bolger's nephew, Harry Perrin, held at Everett Tuesday morning.

Friend's Cove

September 14—The Sunday School Convention of the 14th district held in St. Mark's Lutheran Church Sunday evening was well attended. On account of the illness of Mrs. Mary Sparks, her resignation as Superintendent of Temperance was accepted and Mrs. J. A. S. Beagle was elected as her successor. The address by County President M. H. Kramer of Hyndman was very forceful and inspiring.

David Hartman's little girl, less than three years old, was thrown from a horse hitched to a sled and drug for some distance bruising her considerably. Dr. Fawcett was summoned and rendered medical aid and after several days' anxiety she is reported better.

George Morgart and wife and Frank Cessna and daughter of Rainsburg attended the Sunday School Convention at St. Mark's.

Last Friday while Ross Stiller was harrowing, one of the horses placed one of his hind feet outside the trace while turning and in his effort to replace it the horse kicked him in the stomach. Dr. Hill rendered medical aid and Ross is reported as getting along very nicely.

Mrs. Henry Wilson, who has been a sufferer of malaria fever, is reported better.

Samuel and Chester Cessna were at Piney Creek buying cows last week.

"Not big enough," repeated Allison. "Not big enough, when the Union Fuel company already supplies every candle which goes into the Sudan, runs the pumps on the Nile and the motor boats on the Yang-Tse-Kiang, supplies the oil for the lubrication of the car of Juggernaut, and works the propeller of every aeroplane? Not big enough, when already the organizations represented here have driven their industries into every quarter of the earth? What shall you say when we join to our nucleus the great steamship lines and the foreign railroads? Not big enough? Gentlemen, look here!" He strode over to the big

Again the nasal voice of old Joseph G. Clark drawled into the silence.

"I suggest that we discuss in detail the conditions of the consolidation," he remarked.

The bell of Allison's house phone rang.

"Mr. Dalrymple, sir," said the voice of Ephraim.

"Very well," replied Allison. "Show him into the study. Babbitt, will you read to the gentlemen this skeleton

plan of organization? If you'll excuse me, I'll be back in five minutes."

"Dalrymple?" inquired Taylor.

"Yes," answered Allison abstractedly, and went into the study.

He and Dalrymple looked at each other silently for a moment, with the old enmity shining between them. Dalrymple, a man five years Allison's senior, a brisk speaking man with a protruding jaw and deep-set gray eyes, had done more than any other one human being to develop the transportation systems of New York, but his gift had been in construction, in creation, whereas Allison's had been in combination; and Dalrymple had gone into the railroad business.

"Dalrymple, I'm going to give you a chance," said Allison briskly. "I want the Gulf & Great Lakes Railroad system."

Dalrymple had produced a cigar while he waited for Allison, and now he lit it. He sat on the corner of the study table and surveyed Allison critically.

"I don't doubt it," he replied. "The system is almost completed."

"I'll accept a fair offer for your controlling interest," went on Allison.

"And if I won't sell?"

"Then I'll jump on you tomorrow in the stock exchange, and take it away from you."

Dalrymple smiled.

"You can't do it. I own my controlling interest outright, and no stock gamblers on the board of trade can affect either a share of my stock or the earning capacity of my railroad. When you drove me out of the traction field, I took advantage of my experience and entrenched myself. Go on and gamble."

"I wish you wouldn't take that attitude," returned Allison, troubled. "It looks to you as if I were pursuing you because of that old quarrel; but I want you to know that I'm not vindictive."

"I don't think you are," replied Dalrymple, with infinite contempt.

"You're just a damned hog."

A hot flush swept over Allison's face, but it was gone in an instant.

"It happens that I need the new Gulf & Great Lakes system," he went on, in a perfectly level voice; "and I prefer to buy it from you at a fair price."

Dalrymple put on his hat.

"It isn't for sale," he stated.

"Just a minute, Dalrymple," interposed Allison. "I want to show you something. Look in here," and he opened the library door.

Dalrymple stepped to the opening and saw, not merely seven men, middle-aged and past, sitting around a library table, but practically all the freightable necessities of the United States and practically all its money, a power against which his many million dollar railroad system was of no more opposition than a toy train.

"—the transportation department to be governed by a council composed of the representatives of the various other departments herein mentioned," droned on the voice of Babbitt.

The representatives of the various other departments therein mentioned were bent in concentrated attention on every sentence, and phrase, and word, and syllable of that important document, not omitting to pay important attention to the pauses which answered for commas; and none looked up. Dalrymple closed the door gently.

"Now will you sell?" inquired Allison.

For a moment the two men looked into each other's eyes, while the old enmity, begun while they were still in the womb of time, lay chill between them. At one instant, Dalrymple, whose jaw muscles were working convulsively, half raised his hands, as if he were minded to fall on Allison and strangle him; and it was not the fact that Allison was probably the stronger man which restrained him, but a bigger pride.

"No," he said, again with that infinite contempt in his tone. "Break me."

"All right," accepted Allison cheerfully and even with relief; for his way was now free to pursue its normal course. He crossed to the door which opened into the hall, and politely bowed Dalrymple into the guidance of old Ephraim.

"Dalrymple won't sell," he reported, when he rejoined his fellow members of the International Transportation company.

Joseph G. Clark looked up from a set of jotted memoranda which he had been nonchalantly setting down during the reading.

"We'll pick it up in the stock market," he carelessly suggested.

"Can't," replied Allison, with equal carelessness. "He's entrenched with solid control, and I imagine he doesn't owe a dollar."

Chisholm, with his fingers in his white mutton chops, was studying clean-shaven old Clark's memoranda.

"A panic will be necessary, anyhow," he observed. "We'll acc: the road then."

CHAPTER XI.

Gail Solves the Vedder Court Problem.

Rev. Smith Boyd, rector of the richest church in the world, dropped his last collar button on the floor, and looked distinctly annoyed. The collar button rolled under his mahogany highboy, and concealed itself carefully behind one of the legs. Rev. Smith Boyd, there being none to see, laid aside his high dignity, and got down on his knees, though not for any clerical purpose, whereat the little collar button shone so brightly that the rector's bulging eye caught the glint of it. His hand swung round, at the end of a long arm, and captured it before it could hide any further, then the young rector withdrew his throb-

bing head and started to raise up, and bumped the back of his head with a crack on the bottom of an open drawer, near enough to the top to give him a good long sweep for momentum. This mishap being just one degree beyond the point to which Rev. Smith Boyd had been consecrated, he ejaculated as follows:—

No, it is not respectful, nor proper, nor charitable, to set down what Rev. Smith Boyd, in that stress, ejaculated; but a beautiful, gray-haired lady, beautiful with the sweetness of content and the happiness of gratified pride and the kindness of humor, who had paused at Rev. Smith Boyd's open door to inquire how soon he would be down to dinner, hastily covered her mouth with her hand, and moved away from the door, with moist blue eyes, around which twinkled a dozen tiny wrinkles born of much smiling.

When the dignified young rector came down to dinner, fully clothed and apparently in his right mind, his mother, who was the beautiful gray-haired lady with the twinkling blue eyes, looked across the table and smiled indulgently at his disguise; for he was not a grown-up, tall, broad-shouldered man of thirty-two at all. In reality he was a shock-headed, slightly freckled urchin of nine or ten, by the name of "Smitty" on the town commons, and "Tod" at home.

"Aren't you becoming a trifle irritable of late, Tod?" she inquired with solicitude, wisely suppressing a smile which flashed up in her as she remembered that ejaculation. It was shocking in a minister, of course, but she had ever contended that ministers were, and should be, made of clay; and clay is friable.

"Yes, mother, I believe I am," confessed Rev. Smith Boyd, considering the matter with serious impartiality. Mrs. Boyd surveyed her son with a practiced eye.

"I think your appetite's dropping off a little," she commented, and then she was shrewdly silent, though the twinkles of humor came back to her eyes by and by. "I don't think you take enough social diversion," she finally advised him. "You should go out more. You should ride, walk, but always in the company of young and agreeable people. Because you are a rector is no reason for you to spend your spare time in gloomy solitude, as you have been doing for the past week."

Rev. Smith Boyd would have liked to state that he had been very busy, but he had a conscience, which was a nuisance to him. He had spent most of his spare time up in his study, with his chin in his hand.

"You are quite right, mother," he somberly confessed, and swallowed two spoonfuls of his soup. It was excellent soup, but, after taking a bite of a wafer, he laid his spoon on the edge of the plate.

"I think I'll drive you out of the house, Tod," Mrs. Boyd decided, in the same tones she had used to employ when she had sent him to bed. "I think I'll send you over to Sargent's tonight, to sing with Gail."

The rector of the richest church in the world flushed a trifle, and looked at the barley in the bottom of his soup. His mother regarded him quietly, and the twinkles went out of her eyes. She had been bound to get at the bottom of his irritability, and now she had arrived at it.

"I would prefer not to go," he told her stiffly, and the eyes which he lifted

Gail's eyelids dropped and the corners of her lips twitched when Rev. Smith Boyd's name was brought up to her, but she did her hair in another way, high on her head instead of low on her neck, and then she went down, bewildering in her simple little dark blue velvet cut round at the neck.

"I was afraid that your voice was out," remarked Gail, in a tone suggestive of the fact that that would be a tragedy indeed; and she began hailing forth music. "You haven't been over for so long."

Rev. Smith Boyd colored. At times the way of spiritual instruction was quite difficult. Nevertheless, he had a duty to perform. Mechanically he had taken his place at the piano, standing straight and tall, and his blue eyes softened as they automatically fell on the piece of music she had opened. Of course it was their favorite, the one in which their voices had soared in the most perfect unison. Gail glanced up at him as she brushed a purely imaginary fleck of dust from the keys. For an instant the brown eyes and the blue ones met. He was a tremendously nice fellow, after all. But what was worrying him?

"Before we sing I should like to take up graver matters," he began, feeling at a tremendous disadvantage in the presence of the music. To obviate this, he drew up a chair, and sat facing her. "I have called this evening in the capacity of your temporary rector."

Gail's eyelids had a tendency to flicker down, but she restrained them. She was adorable when she looked prim that way. Her lips were like a rosebud. Rev. Smith Boyd himself thought of the simile, and cast it behind him.

"You are most kind," she told him, suppressing the imps and demons which struggled to pop into her eyes.

"I have been greatly disturbed by the length to which your unbelief has apparently gone," the young rector went on, and having plunged into this opening he began to breathe more freely. This was familiar ground.

Gail rested a palm on the edge of the bench behind her, and leaned back facing him, supported on one beautifully modeled arm. Her face had set seriously now.

"However," went on the rector, "I do not expect to be able to remove the spiritual errors, which I am compelled to judge that you have accumulated, by any other means than patient logic," he resumed. "May I discuss these matters with you?" His voice was grave and serious, and full of earnest sincerity, and the musical quality alone of it made patient, logical discussion seem attractive.

"If you like," she assented, smiling at him with willful deception. The wicked thought had occurred to her that it might be her own duty to broaden his spiritual understanding.

"Thank you," he accepted gravely. "If you will give me an hour or so each week, I shall be very happy."

"I am nearly always at home on Tuesday and Friday evenings," suggested Gail. "Scarcely anyone calls

curious moving object to which his attention had just been called.

"Miss Sargent claims to have a new religion," he observed. "She has said most unkind things about Market Square church. She says that it is a strictly commercial institution, and that its motive in desiring to build the new cathedral is vanity."

He omitted to mention Gail's further charge that his own motive in desiring the new cathedral was personal ambition. Candor did not compel that admission. It did not become him to act from piqued personal pride.

Mrs. Boyd studied him as he gazed somberly at his fish, and the twinkles once more returned to her eyes, as she made up her mind to cure Tod's irritability.

"I am ashamed of you," she told her son. "This girl is scarcely twenty. If I remember rightly, and I'm sure that I do, you came to me, at about twenty, and confessed to a logical disbelief in the theory of creation, which included, of course, a disbelief in the Creator. You were an infidel, an atheist. You were going to relinquish your studies and give up all thought of the church."

The deep red of the Rev. Smith Boyd's face testified to the truth of this cruel charge, and he pushed back his fish permanently.

"I most humbly confess," he stated, and indeed he had writhed in spirit many times over that remembrance. "However, mother, I have since discovered that to be a transitional stage through which every theological student passes."

"Yet you won't allow it to a girl," charged Mrs. Boyd, with the severity which she could much better have expressed with a laugh. "When you discover that this young lady, who seems to be in every way delightful, is so misled as to criticize the motives of Market Square church, you withdraw into your dignity, with the privilege of a layman, and announce that 'you do not approve of her.' What she needs, Tod, is religious instruction."

She had carefully ironed out the tiny little wrinkles around her blue eyes by the time her son looked up from the profound cogitation into which this reproof had thrown him.

"Mother, I have been wrong," he admitted, and he seemed ever so much brighter for the confession. He drew his fish toward him and ate it.

Later the Rev. Smith Boyd presented himself at James Sargent's house, with a new light shining in his heart; and he had blue eyes. He had come to show Gail the way and the light. If she had doubts, and lack of faith, and flippant irreverence, it was his duty to be patient with her, for this was the fault of youth. He had been youthful himself.

before eight-thirty, and we have dinner quite early on those evenings." She began to be sincerely interested in the project. She had never given herself time to quite exactly define her own attitude towards theology as distinct from religion, and she felt that she should do it, if for no other reason than to avoid making impulsive overstatements. Rev. Smith Boyd would help her to look squarely into her own mind and her own soul, for he had a very active intelligence, and was, moreover, the most humanly forceful cleric she had ever met. Besides, they could always finish by singing.

"I shall make arrangements to be over as early as you will permit," declared the rector, warmly aglow with the idea. "We shall begin with the very beginnings of things, and, step by step, develop, I hope, a logical justification of the vast spiritual revolution which has conquered the world."

"I should like nothing better," mused Gail, and since Rev. Smith Boyd rose and stood behind her and filled his lungs, she turned to the piano and struck a preliminary chord, which she trailed off into a tinkling little run, by way of friendly greeting to the piano.

"We shall begin with the creation," pursued the rector, dwelling, with pleasure, on the idea of a thorough progress through the mazes of religious growth. There were certain vague points which he wanted to clear up for himself.

"And wind up with Vedder court," she had not meant to say that. It just popped into her mind, and popped off the end of her tongue.

"Even that will be taken up in its due logical sequence," and Rev. Smith Boyd prided himself on having already displayed the patience which he had come expressly to exercise.

Gail was immediately aware that he was exercising patience. He had reproved her, nevertheless, and quite coldly, for having violated the tacit agreement to take up the different phases of their weighty topic only "in their due logical sequence." The rector, in this emergency, would have found no answer which would stand the test, but Gail had the immense advantage of femininity.

"It altogether depends at which end we start our sequence," she sweetly reminded. "My own impression is that we should begin at Vedder court and work back to the creation. Vedder court needs immediate attention."

That was sufficient. When Allison called, twenty minutes later, they were at it hammer and tongs. There was a bright red spot in each of Gail's cheeks, and Rev. Smith Boyd's cold eyes were distinctly green! Allison had been duly announced, but the combatants merely glanced at him, and finished the few remarks upon which they were, at the moment, engaged. He had been studying the tableau with the interest of a connoisseur, and he had devoted his most earnest attention to Rev. Smith Boyd.

"So glad to see you," said Gail conventionally, rising and offering him her hand. If there was that strange thrill in his clasp, she was not aware of it.

First Dose Ends Indigestion, Heartburn, or Gas on Stomach

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking Tonoline Tablets.

People with weak stomachs should take Tonoline Tablets occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, sour risings, gas on stomach, or belching of undigested food, headaches, dizziness or sick stomach; and besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved five minutes after taking Tonoline Tablets.

Go to your druggist and get a \$1 box of Tonoline Tablets and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. Tonoline Tabs freshen you and make you feel like life is worth living.

Tonoline Tablets cost \$1.00 for a 50 days' treatment. At druggists or mailed by American Proprietary Co., Boston, Mass.—Adv. 10 Sept. 4t.

First Patent for Plow.
The first patent for a plow is said to have been obtained by Joseph Foljamb in 1730. His invention was closely followed by other plow makers, and he struck the same practical idea that has been so elaborated in the soil-turning instrument of today.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By O. E. SELLERS, Acting Director of the Sunday School Course of the Moody Bible Institute.)

LESSON FOR SEPTEMBER 19

DEFEAT THROUGH DRUNKENNESS.

LESSON TEXT—I Kings 20:10-21. GOLDEN TEXT—Vine and new wine take away the understanding. Hos. 4:11 R. V.

We feel somewhat like questioning the title of this lesson. It can be used as a temperance lesson no doubt, but to attribute Ben-hadad's defeat entirely to drunkenness is not quite true to the facts. Jehovah's jealousy of his name (vv. 13) and the enemies' contempt for Jehovah (vv. 23, 28) are the fundamental causes of the defeat of the Syrians though, of course, drunkenness, as an exhibition of self-indulgence and therefore of weakness, was a natural accompaniment of that contempt for God.

I. Ahab's Predicament, vv. 10-12. The Syrian king's contemptuous treatment of Ahab (vv. 1-7) at last became so great that in sheer desperation the people refused to listen to his demands (v. 8). His forces far overwhelmed the little army of Israel (vv. 1, 10, 27), but one was on Ahab's side who had not yet withdrawn his mercy from Israel and with whom Ben-hadad could not cope (v. 13; Rom. 8:31; Phil. 4:13). Ben-hadad was the most powerful monarch of his time of those nations bordering upon the Mediterranean. The march of his army was like "a tempest of hail, an overwhelming scourge" with unrestrained power. The effect was worse than the plagues of Egypt. But Ben-hadad was a drunkard, a habitual one (vv. 12-16). Samaria was rich and this king wanted it even as intemperance always lusts after the wealth of youth and the gold of a nation (vv. 3, 12). Drink always makes a fool of its victim and dooms to ultimate defeat all who yield to its power (ch. 16:9; II Sam. 13:28; Prov. 31:4, 5; Luke 21:34; Eph. 5:18).

II. God's Prophet, vv. 13-15. It was indeed dark for Ahab. He saw (v. 13) the host confronting him but he also heard the word of Jehovah. As contrasted with Jehovah that multitude was but as a handful of dust. God is on the side of temperance. All of God's laws favor temperance. Our ever-living glorified leader and the energizing power of the holy spirit are the ones who are the source of our victories over all principalities and powers of evil. Ahab's predicament is answered by God's "I will deliver" (v. 13) and so today we have his sure promise of victory (Eph. 6:10-12).

God has today set forth his prophets (I Cor. 12:28) to proclaim his message of salvation and power to overcome intemperance. This is not a "necessary evil." Experts and scientists have clearly demonstrated its being unnecessary and a drag upon society, and God has taught us how to overcome it. Ahab's unfortunate character appears at its best in this story, but alas he and his successors soon forgot the lesson.

III. Victorious Princes, vv. 16-21. To Ahab's question "by whom" is this deliverance to be wrought, God answers, "by the young men of the princes of the provinces" (v. 14). These choice young fellows are mustered in, 232 of them, as leaders of an army of 7,000, all who could be found in the capital. God delights to work through young men (2 John 2:13, 14) and the pages of history are strewn with the victorious achievements of youth.

Two-thirds of Lincoln's army were under twenty-one years of age at their enlistment; the Union was preserved by an army of boys.

Ahab himself is the leader (v. 14) and they began at once by carrying the battle into the enemies' territory. Ben-hadad and his drinking companions never dreamed of being attacked at that hour. Like Cideon and his army these young men smote the Syrian host an overwhelming defeat. Israel's enemies had incapacitated themselves. A drunken mob is no match for even a handful of organized and sober men. These thirty-three kings courted their own defeat (Prov. 23:29-32; Eccl. 11:10; Hos. 4:11). Ben-hadad's kings "who helped him" (v. 16) proved to be a reed for all the strength and support they rendered him in the moment of his need.

It was the young men who went first, e. g., struck the first blow. Ben-hadad's self-confidence and boasting (v. 18) is but another illustration of that "pride which goeth before destruction" (Prov. 16:18; Luke 18:14). The army of Israel was small (v. 15) but it did not hesitate to attack the superior force and that sort of faith will always incite others which will "follow them" (v. 19).

Every man "grew his man," each did his part—"played the game and played it fair"—and the result was a host in full flight and the handful of Israelites in pursuit (v. 20).

God saved Israel that day by the use of young men. Teachers, do you realize your opportunity? It is ours to arouse in youth a realization of its capacities, advantages, opportunities and responsibilities; to inspire them with a determination to be of service; to instruct them in God's plan of campaign and to link them with the Young Man of Nazareth, "the Captain of Salvation."

Urged Drinking of Cider.

The encouragement of cider drinking in the cause of temperance was advocated by John Evelyn, who addressed an appeal to Charles II of England on the subject. Since "hops," as he asserted, had "transmuted our wholesome ale" into a drink repaying what pleasure it afforded with "tormenting diseases and a shorter life," he implored the king and all loyal land owners to "plant cider fruit until the preference of more wholesome and more natural drinks do vanquish hops and banish all other drogues of that nature."

Rain.

There are so many things worse than rain that we refuse to fret about it. If we had the toothache every other day for two months straight we might growl; if an amateur cornetist lived next door and practiced regularly we should complain; if bills were sent in once a week instead of once a month, if bores never went home, if all friendship were mercenary and false in adversity, if sickness visited us oftener and stayed longer than health, if malicious people were many and the kind few we might justifiably be miserable and remain so.

But so long as so many worse things that could be don't arrive it can rain every day if it wants to. Most of our joy is weatherproof.

Farmers, mechanics, railroaders, laborers, rely on Dr. Thomas' Eclectic Oil. Fine for cuts, burns, bruises. Should be kept in every home, 25c and 50c—Adv.

Look Before You Leap

"The Liquor Interests."

Every anti-suffrage association has emphatically declared and in many cases sworn, that it has never received any "liquor support."

Neither the National nor the Pennsylvania SUFFRAGE associations are willing to swear that THEY have received no money from persons connected with the "liquor interests."

The only two States to adopt full suffrage since 1912—Montana and Nevada—are the WETTEST States in the Union; while North Dakota, prohibition for 25 years, defeated suffrage through the efforts of the wife of Judge Young, the leading temperance advocate and enforcer of that State. Mrs. Young is president of the North Dakota Anti-Suffrage Association.

In an official statement issued by Mrs. Grace Wilbur Trout, President of the Illinois Woman Suffrage Association, she says: "It is our pleasure to acknowledge that some of our strongest supporters in the legislature were the so-called 'Wets.' The State Association will endorse every legislator who voted for equal suffrage."

Women have voted for 45 years in Wyoming. There is not one dry county in the State. They have voted for 21 years in Colorado, and until 1914, it was the wettest and weakest State in the Union.

"The Women I Love."

I am opposed to the granting of suffrage to women because I believe that it would be a loss to women—to all women and to every woman; and because I believe it would be an injury to the State, and to every man and every woman in the State. Government is protection. The whole science of government is the science of protecting life and liberty and the pursuit of happiness, of protecting our person, our property, our homes, our wives and our children, against foreign aggression, against civil dissension, against mobs and riots rearing their fearful heads within this peaceful land during the very sessions of this Convention. Against crime and disorder, and all the army of evil, civil society wages its war, and government is the method of protection, protection of us all. In the divine distribution of powers, the duty and the right of protection rests with the male. It is so throughout nature. It is so with men, and I, for one, will never consent to part with the divine right of protecting my wife, my daughter, the women whom I love and the women whom I respect, exercising the birthright of man, and place that high duty in the weak and nerveless hands of those designed by God to be protected rather than to engage in the stern warfare of government.—Elihu Root, Secretary of State in Roosevelt's Cabinet. Mr. Root is one of America's greatest statesmen. He was chairman of the New York (1915) Constitutional Convention.

Rev. Dr. Buckley.

In Dr. James M. Buckley's book—"The Wrong and Peril of Woman Suffrage," on page 125, you can find these words from Dr. Buckley's pen:

"I believe that neither the State, the family nor woman herself would be benefitted, but on the contrary would be injured, if she were invested with the suffrage."

Dr. Buckley is the able editor of the New York Christian Advocate. His book is "Dedicated to Men and Women who Look Before they Leap."

William Howard Taft.

Former President Taft in the Saturday Evening Post of September 11, 1915, gave his opinion in a two-page article about woman suffrage. Mr. Taft wrote: "If in any of the States now acting on this question I were called upon to vote, I would vote against giving the suffrage, because I think to force it on an unwilling majority of women, lacking in needed training and general experience, is to add to the electorate an element that will not improve its governing capacity."

And again: "The immediate enfranchisement of women will increase the proportion of the hysterical element of the electorate to such a degree that it will be injurious to the public welfare. It will increase the danger of unwise millennial legislation and will promote the influence of organized emotion in the conduct of our Government."

Thomas Jefferson.

Thomas Jefferson, who wrote the Declaration of Independence and is called the "Father of Democracy," said: "The first principle of democracy is the law of majority rule." This is what we Americans mean when we speak of "Government of, by and for the people."

Queen Victoria.

Queen Victoria had more practical knowledge of politics than any woman who ever lived. Listen to her words: "The Queen is most anxious to enlist every one who can speak or write in checking this mad, wicked folly of 'Woman's Rights' with all its attendant horrors."

Miss Ida Tarbell, one of the ablest women in America, wrote: "The best laws in regard to women and children have been passed in States where there is no woman suffrage. I don't like to see our women get mixed up in politics because they're just the same old partisan politics. Women can do something better."

Woman is Queen, but her kingdom is the domestic kingdom.—Cardinal Gibbons.

Whatever a few hysterical suffragettes may claim, few sober-minded women desire suffrage, says Rev. Lyman Abbott, Editor of the Outlook.

Marriage and Divorce.

Bishop William H. Moorehead of the Episcopal Diocese of Sacramento, Cal., in an address recently before the World's Congress on Marriage and Divorce, said: "Two million families destroyed in fifty years is the toll of the divorce court. The States of Washington, Montana, California and Colorado are the worst offenders in this matter." Women can vote in all of these States. They have voted in Colorado for 21 years.

Going, Not Coming.

In forty-five years woman suffrage has "slipped through" eleven sparsely settled States on waves of Populism, Mormonism and Socialism, by the average majority of less than 9,000 votes per State—while 7 per cent. of the electorate DID NOT vote in favor.

Since November 1, 1912, woman suffrage has been defeated at the Polls NINE TIMES, by Ohio, Michigan, Missouri, Wisconsin, North Dakota, South Dakota and Nebraska (over Sixteen Million Population) by an average majority of over 78,000 votes per State (higher plurality percentage than ever given a President of the United States.) Woman Suffrage is GOING, not coming.

More than 90 per cent. of the women of Pennsylvania do not want to vote. MEN, stand by the large majority of women who do not want the burden of suffrage thrust upon them, and vote NO on Woman Suffrage, Amendment No. 1, next November. (Adv.)

William F. Easter For County Commissioner

I hereby announce myself as a candidate for the Democratic nomination for County Commissioner, subject to the decision of the Democratic voters of Bedford County, and pledge myself to support the ticket nominated.

For years I have been interested in public affairs, and I pledge myself, if elected, to work for the interest of all the people.

Being a practical stone mason, and having helped to build 14 bridges in this county, and having repaired a great many, I can and will give the county, if elected Commissioner, the benefit of my practical experience, and I shall insist upon having all work done thoroughly and economically. I shall favor the building of a bridge where it is deemed necessary by the taxpayers living in the vicinity of the proposed bridge.

As a farmer and taxpayer, I realize that the taxes are too high, and I pledge myself, if elected, to work for economy, efficiency, lower taxes (a 6 or 7 mill tax), and a square deal for all the people.

I ask for your vote and your influence. I am a Democrat, and have always been a worker in the party.

Bear in mind, I am "for the folks, not the factions."

Yours sincerely,

WILLIAM F. EASTER,
Bedford, Pa.
